

Final project presentation

"under the same sky"

Amanda Huang, DES 157

# Comparative Research

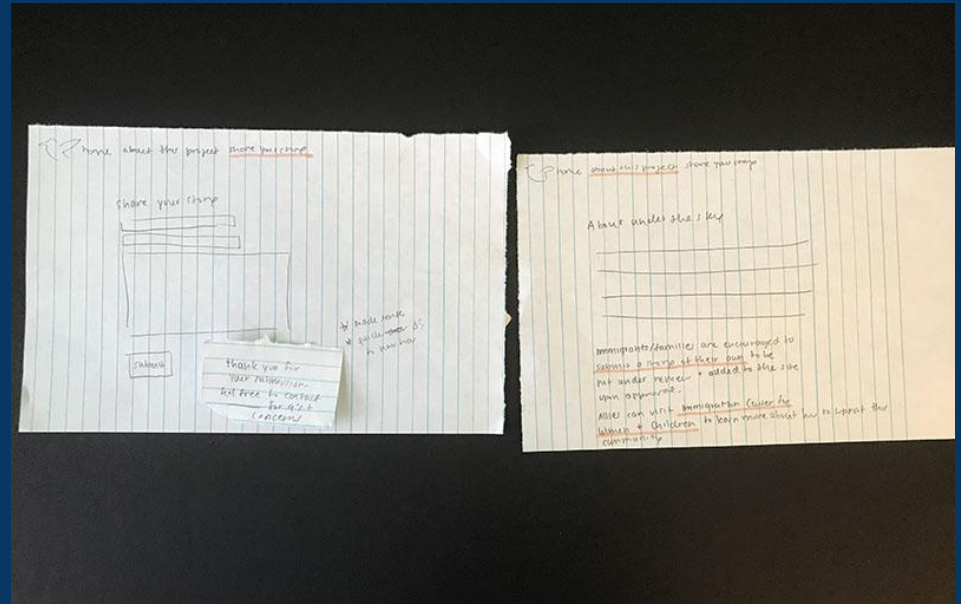

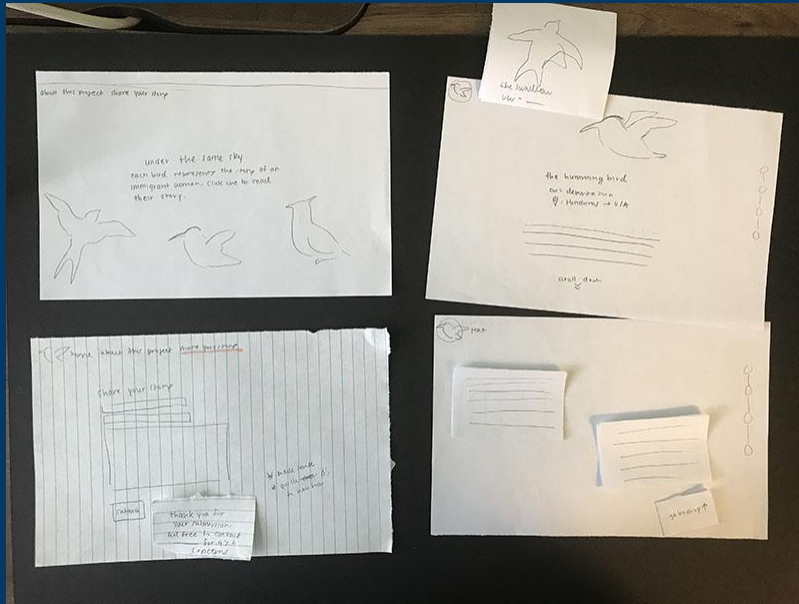

## "Migration is Natural" by Jess X Snow

image sources: "Migration is Natural" by Jess X Snow

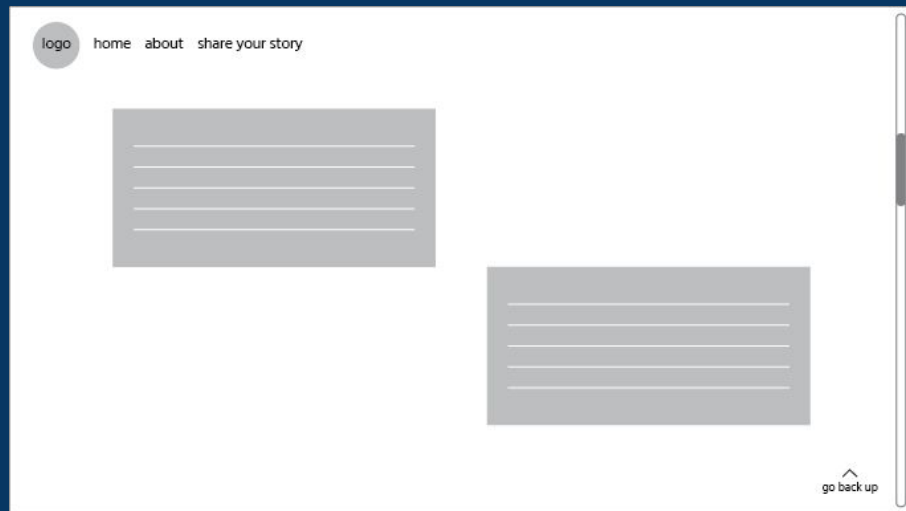

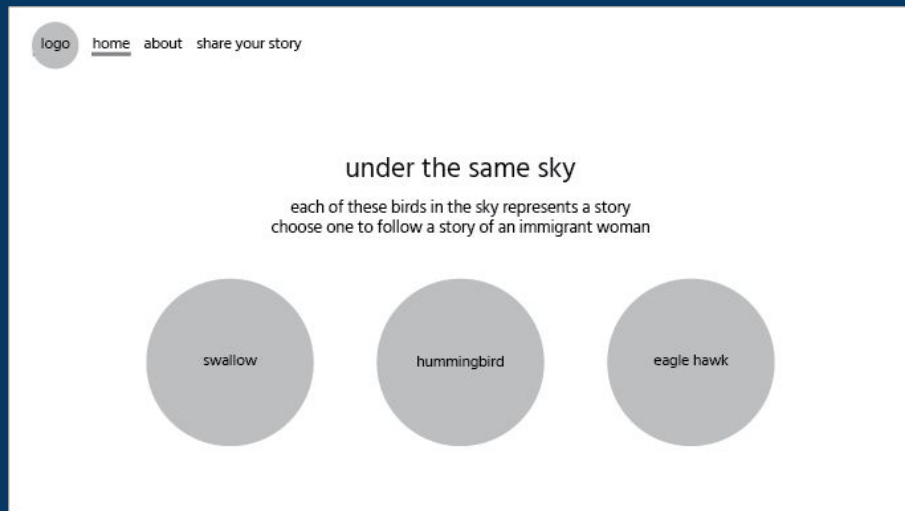

"Migration is Natural" by artist Jess X Snow was one of the key motivations for this project. My comparative analysis of this video allowed me to explore the possibilities of storytelling to express truths about the immigrant community

# Paper Prototypes

During paper prototyping I realized what were some key issues potential users had by interacting with the wireframe, such as the confusing hamburger menu and lack of pages

# Wireframes

Wireframing my site was key towards helping me understand how to make an interface that was interactive, supported the storytelling experience for the user, and was easy to navigate.

# Current iteration
